**Second Session**

**Twentieth Legislature**

**Regina, Thursday, March 17, 1983**

*2:03 o'clock p.m.*

PRAYERS

Mr. Speaker informed the Assembly that he had received a communication from the Private Secretary to His Honour the Lieutenant Governor stating that His Honour would open the Session at 2:00 o'clock p.m. today, Thursday, the Seventeenth day of March, 1983.

*2:05 o'clock p.m.*

His Honour the Lieutenant Governor entered the Chamber and, having taken his seat upon the Throne, was pleased to open the Session with the following speech:—

MR. SPEAKER,

MEMBERS OF THE LEGISLATIVE ASSEMBLY

It is my privilege to welcome you to the Second Session of the Twentieth Legislature of Saskatchewan.

My Government looks forward with confidence to the opportunities which lie ahead for Saskatchewan and her citizens. There are finally hopeful signs that the period of severe economic shock which has jolted the western industrialized world, and therefore Saskatchewan's international markets, is gradually coming to a close.

While the world-wide recession is not yet over, we in Saskatchewan must now prepare to act with other governments in Canada to bring a maximum of stability to our economy and protection to our citizens during the reconstruction period. We must be able and ready to create a firmer economic foundation for the future. Our economy has retained its fundamental strength and my Ministers believe Saskatchewan's economy will help lead the recovery in North America.

**Canada**

Nationally, the recession has been the worst economic downturn since the Great Depression. In Canada, over the past year and one-half, output has fallen by nine percent and more than half a million jobs have been lost.

**Saskatchewan Economy**

Saskatchewan has not experienced the kind of decline in total output seen elsewhere in Canada. In 1982, Saskatchewan was the only province in the nation to record employment growth.

Nevertheless, growth in output and employment did slow. Prices and markets for many of our major exports have declined. Our unemployment rate is the lowest in Canada, but is still high.

While some sectors of our economy, such as the potash industry, experienced weak demand for our products, there have been signs of recovery in recent months. The housing industry is strong. Housing starts in Saskatchewan rose fourteen percent in 1982 over 1981, while falling twenty-nine percent nationwide. Inflation in Saskatchewan has consistently been the lowest in Canada. The health of the province's oil industry has improved substantially as a result of royalty and marketing changes implemented by my Ministers. However, the present confusion in international petroleum markets has adversely affected the industries of both Saskatchewan and Alberta.

It is anticipated that renewed economic growth will not immediately lead to a strong improvement in the national unemployment situation. My government will be introducing measures to deal with this problem.

**Tax Policy**

It is a government's obligation to ensure that the cost of government is distributed fairly and equitably through the tax system. It is also a government's obligation to ensure that the tax system does not become excessively burdensome to the people of the province.

Steps have already been taken by this Assembly to lower the total tax burden. My government remains committed to the overall objective of lower taxes and will continue to take steps to reduce taxes wherever they are excessive and whenever reductions are possible.

**Intergovernmental Relations**

My Government has consistently worked to promote a co-operative relationship with the federal government. Co-operation has been a key factor in the development of the Saskatchewan Family Farm Purchase Program which is being delivered through the Farm Credit Corporation. The Saskatchewan oil industry has been strengthened through parallel royalty and tax reductions and by the co-operation of governments in the resolution of the marketing problems which plagued the industry in the early part of 1982.

My advisers continue to believe that good relations with Ottawa over the coming months and years are important if the two levels of government are to act together to solve common problems. Unfortunately, some recent initiatives by the federal government do give my Ministers somewhat less reason to believe that a mutual willingness to co-operate will prevail in the future.

My Government intends to develop more frequent contacts with the political representatives of the mid-western states to facilitate the discussion of issues of common concern such as water, agriculture and tourism. While we are competitors in many areas, particularly in the world grain and livestock markets, it will be useful to explore the several possibilities which may arise from consultation with neighbours.

**Economic Development**

It is in Saskatchewan's interest to expand and diversify its economy over the next decade to enable our citizens to enjoy challenging careers at home in this province. Saskatchewan needs a stronger private sector to bring diversity and flexibility to our economy, to generate income for future investment, and to meet the competition in resource and manufactured products from countries which have advanced through the inventiveness, energy and resilience of their own private sectors. My Ministers have taken steps to encourage the people of Saskatchewan to invest in their province.

In meeting the challenge of competition Saskatchewan must be prepared to advance from the base of strength given to us by our advanced agricultural industry, and to develop and broaden the steps we have already taken in advanced technology research.

Infrastructure enhancement, particularly in education and research capacity is urgently needed,

My government will soon be announcing details of a major high-technology development strategy. This strategy will provide the impetus to 1) permit the private sector to benefit from the implementation of high technology in existing and new industry in Saskatchewan; and 2) allow the public sector to lead in the development and application of technology.

The strategy will include the provision of support and financial services to inventors and entrepreneurs, the establishment of industrial high-technology research and development centres, the linkage of industrial services with the training of highly-skilled manpower, and the co-ordination of the provincial agencies and departments to provide industry with an advantage in this vital segment of economic development.

The effective implementation of technology in the service of Saskatchewan continues to be the role of the Saskatchewan Research Council. In the coming year the Council will be restructured to focus on key areas such as water resources research, the transfer of computer-assisted design technology to industry, and environmental problems related to acid rain. High technology services will be made relevant to the needs of Saskatchewan industry.

#### **Labour Relations**

My Government believes that fairness and balance in labour-management relations throughout the province must be achieved as a pre-condition to the generation of new employment opportunities. Productive relations amongst the government, labour unions and employers will be pursued by the new Labour Relations Branch of the Department of Labour, and by the continuing work of the Saskatchewan Development Committee.

In this Session, further amendments to The Workers' Compensation Act will be placed before you to advance the work already completed in the First Session.

#### **Crown Corporations**

Saskatchewan has developed over the years a mixed economy in which both public and private initiatives have a place. My advisers believe that, when properly balanced, this mix has worked well. The Saskatchewan Crown Corporations will continue to play a key role in our economy, while still leaving room for increased private sector investment and growth. Measures will be introduced to streamline the operations of the Corporations, and increase their effectiveness.

#### **Co-operatives**

Over the years the people of Saskatchewan have arrived at unique and effective responses to the challenges of our economic environment. Co-operatives are now directly involved in supplying feed, fuel, fertilizer, general farm supplies and food.

My Government recognizes and appreciates the contribution of co-operatives to the growth and prosperity of this province. Discussions with many co-op leaders have suggested to my Ministers the necessity of changes in the enabling legislation. These changes, by reflecting the needs of individual co-op members, and the needs of the co-op organizations, would provide a strong supportive base for future development.

A new Co-operatives Act will therefore be introduced in this Session.

**Small Business**

Many small contractors supply, or would like to supply, their services to the government. On small projects the ability of these contractors to quote on the work is complicated by the government's requirement for performance bonds.

My Government intends to review its requirements for bonding on small projects. A new policy should simplify bidding procedures for small Saskatchewan contractors.

**Agriculture**

Saskatchewan is fortunate to have an agricultural industry which has retained its position as an innovative competitor in world markets. Saskatchewan's agricultural strength and expertise has won for it a place as a chief export dollar earner for Canada.

My Government has taken a number of significant measures to strengthen the agricultural sector. In particular, the Farm Purchase Program will help guarantee that the farm industry is composed of family farm units.

My Ministers will introduce several additional bills respecting agriculture in this Session. Among them will be amendments to The Saskatchewan Farm Ownership Act to restrict the use of limited partnerships as a device enabling non-resident and non-agricultural corporations to invest in agricultural land in Saskatchewan. A Horse Racing Commission Act, to govern the conduct of horse racing will be placed before you.

My Government will be taking new initiatives in the area of agricultural research and market development. Producers and commodity groups will be invited to participate in all aspects of these new endeavours. These measures will need special enabling legislation which will be introduced shortly. Amendments to The Horned Cattle Purchases Act will be introduced.

Other measures to facilitate the growth and stability of Saskatchewan's agricultural industry will be brought to the Assembly for your consideration.

This Assembly has expressed its unanimous opposition to the current federal plans for replacing the Crow Rate with a new freight-rate structure. My Ministers continue to believe that the new plan will impose unacceptably high costs on Saskatchewan's farmers, without allowing compensating benefits. If required, measures will be placed before the Assembly to keep Saskatchewan's grain and livestock farmers competitive with those in other parts of Canada.

**Energy and Natural Resources**

Over the past few months we have witnessed a dramatic increase in oil-industry activity in Saskatchewan. However, in the past few weeks a new concern for our oil industry has arisen because of the prospect of dramatic decreases in the world price of this important provincial resource.

One effect of a decline in world oil prices will be a reduction in projected provincial revenues. Another effect could be a reduction in exploration, development, and potentially the production of Saskatchewan's oil resource. Important gains made in revitalizing our oil industry are threatened.

My Government is watching the world oil price situation very carefully. Saskatchewan is prepared to act to protect our oil industry to ensure that as a province we retain our traditional position as owner of the resource.

Recently my Government introduced a new natural gas pricing policy for Saskatchewan. This new policy is aimed directly at stimulating the development of our province's gas reserves and lessening our dependence on more expensive imported natural gas.

My Government is committed to a ten-year program to extend natural gas to farms and rural communities, bringing services to approximately twenty-five thousand farm and ten thousand residential customers. Up to three hundred man years of work per year will be created by this three hundred and forty million dollar undertaking. Saskatchewan families will benefit from the provision of less expensive heating fuel, and business activity will be stimulated by installation projects.

My Government's pursuit of new market opportunities for our natural gas will stimulate a Saskatchewan industry that has languished over the past decade.

My Government will actively continue its efforts to streamline and simplify the legislation and regulations governing the development and taxation of Saskatchewan's mineral resources.

Recently, my Government began this process by implementing a much simplified tax system for freehold oil production. This new tax system will save both industry and government significant administration costs, while achieving a level of provincial revenue equal to the former, complex tax method.

To carry on this program, my Government will soon introduce a new simplified system for the taxation of Saskatchewan's other mineral resources. This new streamlined tax system will achieve important savings in administration, again without any revenue loss to the province.

In addition, my Government reaffirms its promise to bring forward other new measures in the future to further streamline the development of Saskatchewan's mineral resources.

The Saskatchewan Power Corporation is steadily working to expand the power resources of the province and to increase availability to consumers. Construction of the Nipawin Hydroelectric Project is proceeding on schedule, with the first unit expected to be in operation in late 1985. Seventy-one percent of contracts let to date have been awarded to Saskatchewan contractors or suppliers.

The Saskatchewan Potash Industry has been severely hampered by the shrinkage of world markets as a result of the recession. American farm customers in particular have been burdened by over-production, high costs and low returns, and have cut their purchases of fertilizers. Government revenues have declined, and extremely high inventory levels have resulted in plant closures and temporary lay-offs.

A number of initiatives are being taken to improve the competitiveness of Saskatchewan potash. A warehousing and storage network has been established in the United States, and unit train shipments have cut transportation costs.

Approaches are being made to Brazil to overcome its discrimination against Canadian potash. Saskatchewan is joining with the federal government to examine the possible funding of an industry association. My Government will support key market initiatives such as the soon to be signed Saskatchewan/China agronomic development program, which will be funded by the Saskatchewan and federal governments, and implemented by the Potash and Phosphate Institute of Canada.

My Government continues to support the Potash Corporation of Saskatchewan Phase II Lanigan expansion — one of the few western mega projects still proceeding. Despite a delay of one year in the construction schedule, eighty million dollars will be invested this year.

My Government believes that the huge potash reserves of Saskatchewan and the long-term delivery guarantees which can be given as a result will again put Saskatchewan at the forefront of world production as the international economy recovers and demand rebounds. Both private companies and the Potash Corporation of Saskatchewan will be in a position to market aggressively.

#### **Government Effectiveness**

My Ministers are taking measures to bring a higher degree of efficiency to the operations of government, and to guarantee to the public helpful and courteous service.

My Ministers will be introducing a number of legislative changes to implement improvements to the organization of the Government of Saskatchewan.

The objective of the re-organization will be to achieve a more effective and efficient government structure, better able to respond to the needs of the people of Saskatchewan.

In addition, a productivity improvement study, to stimulate performance within the public service, is being undertaken by a team of senior public service and Crown Corporation officials, and is chaired by a Member of this Assembly.

My Government is continuing the regulatory review process. Steady progress is being made in the task of culling obsolete regulations and statutes from the books and in revising others to eliminate vague or confusing procedures, excessive time delays and red tape. Regulatory reforms will ease the way for the public in its dealings with government and improve the quality of public administration. Within the next year an omnibus bill, The Regulatory Reform Act, will be presented for your consideration.

### **Education**

Competitiveness for modern economies and security for individuals is increasingly tied to the efficiency of the educational system.

My Government recognizes the importance of maintaining a strong educational system in the province through programs aimed at strengthening and supporting the curriculum, providing opportunities for linguistic, native and special needs groups, and ensuring an adequate level of operating and capital grants.

Changes to The Education Act will be introduced to reflect concerns of the education community. You will also be asked to consider amendments to The Teachers' Superannuation Act and The Teachers' Life Insurance (Government Contributory) Act arising from the successful completion of provincial teacher bargaining.

My Government considers post-secondary and adult education to be a cornerstone in the economic and social development of Saskatchewan.

If we are to rise to the challenge of providing our people with opportunities for growth and personal achievement, and our province with the skilled manpower necessary for a vital economy, innovative, bold action must be taken.

Therefore, my Government will push ahead with major new initiatives designed to make our adult education system an even greater engine for growth in Saskatchewan.

In particular, it will concentrate on initiatives aimed at bringing our technical-vocational training capacity up to the level at which it should be established for a province with great economic vitality and promise of Saskatchewan.

My Government's goal is three-fold: to substantially increase the range of training programs offered; to broaden the range and greatly increase the number of people served; and to increase access to credit training programs for young people and adults throughout Saskatchewan.

To these ends, my Government will significantly increase capacity in the next three years, through a number of measures, including:

- the addition of new training programs at the province's three technical institutes;
- the completion of the expanded version of the Prince Albert Technical Institute;
- improved planning for future training and manpower needs by forging a closer link with labour, industry and the public;
- improvement and expansion of our ability to train highly-skilled manpower for complex fields — notably through the addition of new high-technology programs to the curricula of the technical institutes; and
- the development of contemporary educational and training programs targeted for single parents in need.

My Government is working to improve Saskatchewan's library services. Revisions to The Public Libraries Act will be introduced later this year. To increase the efficiency and effectiveness of public library resources, the cataloguing support service has been automated. A Joint Venture Agreement encompassing the Saskatoon and Regina Public Libraries and the Provincial Library will make the complete collection of all three resource libraries available in machine-readable form. Additionally, my Government will proceed immediately with the research, planning, and Request For Proposal necessary to set up a Saskatchewan database.

### **Social Services and Health Care**

My Government is committed to improving the quality of life for all citizens. In particular preparations are being made to meet the challenge placed on government and society by the growing numbers of seniors.

My Ministers are also deeply committed to improving independent living opportunities for the disabled and disadvantaged.

My Government intends to encourage a sense of responsibility for their own well-being amongst individuals, families and local communities. At the same time universal programs and standards will be safeguarded by government to ensure that the rights of all are realized to the fullest potential.

In social programming, my Government will emphasize an effective partnership between community-based services and government-funded programs. In this way the social fabric of each individual community can be made stronger.

The federal-provincial joint job creation program is being implemented smoothly, and is currently over halfway to attaining its overall goal.

My Government will continue its commitment to improving health services in Saskatchewan.

Attention will be focused on maintaining and stabilizing basic health-care services. The cancer program in particular will continue to be expanded and improved.

A new approach to ambulance services will be initiated. Several steps will be taken to strengthen the ambulance program and to incorporate it within the health-care system.

On April 1, 1983 responsibility for the ambulance program will be transferred to the Department of Health. An ambulance services unit will be established at a senior level within the department to co-ordinate all aspects of the program. Also, a joint ambulance service advisory committee will be established with the groups and organizations involved. Finally, in the coming months my Government will work closely with providers of ambulance services to develop a new funding system for implementation on April 1, 1984.

### **Housing**

Over the past year, my Government has begun to make changes in the priorities and directions of the Saskatchewan Housing Corporation. The objective of these changes has been to make the Corporation a true partner with the private sector in providing Saskatchewan's housing through co-operation rather than competition.

New programs such as the Build-A-Home Saskatchewan program, have proved very successful, with single detached housing starts rising substantially since the introduction of the program in December 1982.

### **Municipalities**

My Government has undertaken a comprehensive review of the position of Saskatchewan's municipalities, and believes a number of adjustments are required in the legal structures governing local governments.

The Planning and Development Act is the key tool for enabling municipalities to accommodate orderly economic growth by shaping and directing the physical development of their communities. Municipal and private-sector groups have requested an update of the Act, which has not been reviewed since 1973. The Departments of Urban Affairs and Rural Affairs have been revising the Act in consultation with the Department of Northern Saskatchewan, municipal groups such as The Saskatchewan Association of Rural Municipalities, and representatives of private industry associations.

The new Act is intended to preserve and strengthen local autonomy by providing municipalities with a framework within which they can make their own land-use decisions, and it will provide them with a greater range of land-use management techniques. The re-drafting is taking place within the context of my Government's regulatory reform program and its desire to promote more business activity while maintaining protections for public health and safety.

For a number of years urban governments have been urging modernization of the Urban Municipality Act. The Act is the single most important legislative tool for urban municipalities and the need for changing and updating it is now paramount. The Department of Urban Affairs in consultation with the urban administrative officials and the Saskatchewan Urban Municipalities Association has been drafting a new Act which will be introduced in the Assembly late in 1983. The Act will streamline and update municipal practices and procedures to enable urban governments to face the challenges of the 1980s and will increase the degree of local autonomy afforded to the urban level of government.

The Northern Municipalities Act, which was introduced in the First Session to allow consultation, will be introduced in revised form for your consideration.

An adequate supply of water and the effective treatment of wastewater are essential to the well-being of the people of Saskatchewan and its economic stability and future development. To review water issues and water management problems, my Government established a Cabinet committee on water concerns. The committee held public hearings in ten communities throughout the province. The views gathered from the municipalities and from local governments will form an important part of my Government's strategy for dealing with the many different demands on this vital and limited resource.

My Government intends to introduce measures to bring all water-related legislation and services under one body. This exciting new approach will facilitate many of the water programs and projects which have been discouraged for years.

The first general revaluation of all properties in the province for tax purposes on a standard valuation base will be completed in 1985. The completion and implementation of this program will place all municipalities, including the cities of Regina and Saskatoon, on a common valuation base for the purpose of levying property taxes and calculating major provincial grants. The basic computer program for the automation of the provincial assessment file will be completed in June of this year.

### **Highways**

My Government, in its efforts to make Saskatchewan's roads safer, intends to introduce a new Vehicle Act in this session. The new Act will modernize a much out-dated piece of legislation. As well, it will focus attention on the dangers of drinking and driving by increasing fines, and allowing mandatory body fluid samples. My Minister of Highways hopes to promote expanded participation in the 'Driving Without Impairment Program'.

Necessary amendments to The Highways Act will also be introduced to promote safe highway travel. An act respecting the transportation of dangerous goods will be placed before the Assembly.

### **Communications**

My Government will propose legislation to establish a licensing authority for cable services in Saskatchewan, with jurisdiction to regulate access to, and use of, the valuable and limited facilities in the province for the carriage of those services.

The delivery system for 'distance education' services in Saskatchewan lags behind recent technological developments, and is now dependent upon the postal distribution of printed and audio-visual materials. A telecommunications based distance-education service utilizing existing Provincial facilities may provide a more effective and cost-efficient means of disseminating instructional and cultural materials. Accordingly, my Government will be developing a proposal for the introduction of a modern distance-education system and will invite the people of this Province to participate directly in the development of such proposals.

### **Justice**

In relation to Justice Services, legislation will be introduced to clarify and modernize the role of the Attorney General for Saskatchewan as the chief legal adviser of the government and the official charged with the administration of justice in the province. My government will also propose legislation increasing the monetary jurisdiction of the Small Claims Court, thereby providing a quicker and more inexpensive means for resolution of legal disputes at the Provincial Court level. Amendments will also be proposed to The Queen's Bench Act to expedite and simplify legal proceedings.

### **Other Legislation**

Amendments will be proposed to The Department of Finance Act to streamline administration and financial procedures. A separate Act will be introduced to give the provincial auditor a clear and independent mandate.

Other legislative measures to modernize statute law; promote the efficient operation of departments, agencies and boards; and protect the citizens of Saskatchewan will be introduced in the Assembly.

### **Conclusion**

The Public Accounts for the last fiscal year, together with Estimates for the year beginning April 1, 1983, will be submitted to you.

I leave you now to the business of the Session with the full confidence that you will favourably discharge your duties and responsibilities.

May Divine Providence continue to bless our Province and guide this Legislature in all its deliberations.

His Honour the Lieutenant Governor then retired from the Chamber.

*2:42 o'clock p.m.*

The debate continuing, it was moved by the Hon. Mr. Blakeney, seconded by Mr. Lingenfelter, in amendment thereto:

That the following words be added to the motion:

but regrets that, notwithstanding the admission by Your Honour's advisers that unemployment in Saskatchewan is too high, and that our economy is in recession, the legislative plan for the Second Session of the Twentieth Legislature, failed adequately to address the problems of:

- (1) the more than fifty thousand Saskatchewan people seeking employment;
- (2) the thousands of high school, technical institute, and university students who will need employment this summer;
- (3) Saskatchewan's working poor, who are to have their wages frozen for two full years;

- (5) Saskatchewan's native people, who need assistance as they attempt to secure their economic future;

Moved by the Hon. Mr. Andrew, seconded by the Hon. Mr. Blakeney, by leave of the Assembly:

That this Assembly records with sorrow and regret the passing of a former Member of the Legislative Assembly of Saskatchewan:

**JOSEPH LEE PHELPS**, who died on March 16, 1983, was a Member of this Legislature for the constituency of Saltcoats from 1938 to 1948. Born in Ontario in 1899, he was educated at Wilkie, Saskatchewan where he farmed. In 1916, at the age of 17, he was elected a district director of the Saskatchewan Grain Growers Association. He also served as a member of the provincial executive of the Saskatchewan School Trustees Association and as a member of the Wilkie Board of Trade. From 1944 to 1948 he served as Minister of Natural Resources and Industrial Development. He was instrumental in the establishment of the Western Development Museums and in his later years was vice-president of the Saskatchewan Senior Citizens Action Now Association.

In recording its own deep sense of loss and bereavement, this Assembly expresses its most sincere sympathy with members of the bereaved family.

#### STATEMENT BY MR. SPEAKER

Members will be aware that the proceedings of the Legislative Assembly have been televised and distributed to Saskatoon and Regina citizens by means of broadcasters and cablecasters.

The cable channel in Regina has been channel no. 5—the channel formerly used by the public broadcasting service. It is my information that the public broadcasting service will likely return to full service tomorrow and thus pre-empt our signal.

We and Cable Regina have been negotiating with the Canadian Radio, Television and Telecommunications Commission in Ottawa for permission to carry the legislative broadcasts on cable channel 3, the community programming channel. These negotiations have been ongoing for nearly a month. Broadcast time on this channel is available each afternoon. CRTC permission is all that is needed to distribute our signal on channel 3. To date CRTC has not granted this permission.

It is therefore my duty to advise all Hon. Members and the viewing public in Regina and area that our signal will likely not be distributed on cable in Regina after today. I should add that fortunately distribution in Saskatoon will not be disturbed.

Public reaction to the legislative telecasts has been very positive. I believe Members and the public realize the importance of as many citizens of Saskatchewan as possible being able to view their elected Members in session. It is for this reason that I felt an obligation to advise the Members and the public of this disruption in service until CRTC will grant required authorization.

On motion of the Hon. Mr. Andrew, seconded by the Hon. Mr. Currie, by leave of the Assembly:

Ordered, That notwithstanding Rule 3, this Assembly shall on Thursday, March 31, 1983, meet at 10:00 o'clock a.m. until 1:00 o'clock p.m.

On motion of the Hon. Mr. Andrew, seconded by the Hon. Mr. Currie, by leave of the Assembly:

Ordered, That when this Assembly adjourns on Thursday, March 31, 1983, it do stand adjourned until Tuesday, April 5, 1983.

On motion of the Hon. Mr. Andrew, seconded by the Hon. Mr. Currie, by leave of the Assembly:

Ordered, That notwithstanding Rule 8(3), the order of business for Tuesday, March 29, 1983, will be the same as a Monday and the order of business for Wednesday, March 30, 1983 will be the same as a Tuesday.

PRAYERS

STATEMENT BY MR. SPEAKER

I would like to inform Members of the Assembly that this Sunday, March 27, 1983, marks the 100th anniversary of the transfer of the seat of government of the Northwest Territories from Battleford to Regina.

A comment of the day in the *Manitoba Free Press* described the site of Regina as 'in the midst of a vast plain of inferior soil...with about enough water in the miserable little creek...to wash a sheep...The place has not a single natural advantage to commend.' Hon. Members will know that the debate over the choice of Regina as the seat of Government did not end in 1883.

The new capital was located on Dewdney Avenue, and the first Saskatchewan Legislature met there in the former Territorial Government Building from 1906 until 1912 when Members first met in the Legislative Building where we meet today.

The Assembly resumed the adjourned debate on the proposed motion of Mr. Dutchak, seconded by Mr. Martens:

That an Humble Address be presented to His Honour the Lieutenant Governor as follows:

TO HIS HONOUR THE HONOURABLE CAMERON IRWIN MCINTOSH

*Lieutenant Governor of the Province of Saskatchewan*

The Assembly resumed the adjourned debate on the proposed motion of the Hon. Mr. Andrew:

That this Assembly do now resolve itself into the Committee of Finance.

The debate continuing, it was moved by Mr. Shillington, seconded by Mr. Yew, in amendment thereto:

That all the words after the word 'That' be deleted and the following substituted therefor:

this Assembly express its shock and dismay with the budget because:

- (1) it contains the largest deficit in the 78-year history of the province—\$317 million;
- (2) coupled with the deficit in 1982-83, the Government of Saskatchewan is now more than half a billion dollars in the red;
- (3) these record deficits are not the result of government efforts to create jobs, but rather the result of government give-aways to: big oil companies; American-based private potash companies; and interprovincial truckers such as CP Transport;
- (4) it offers a totally inadequate job creation response at a time when unemployment is at its highest level in Saskatchewan since the Great Depression;

- (5) it contains no assistance for Saskatchewan farmers to deal with their worsening cost-price squeeze;
- (6) it contains no economic development plan for the people of northern Saskatchewan;
- (7) it contains savage cuts in needed government services for thousands of Saskatchewan people.

### PRAYERS

Mr. Speaker, as Chairman of the Standing Committee on Communication, presented the Fourth Report of the said Committee which is as follows:

Your Committee has considered the reference of the Assembly of March 2, 1983, namely the recommendations of the Public Documents Committee under *The Archives Act* contained in the Retention and Disposal Schedules comprising Sessional Paper No. 83 of the First Session of the Twentieth Legislature.

Your Committee recommends to the Assembly that the recommendations of the Public Documents Committee on Schedules Nos. 229-235 be accepted as amended.

Your Committee has also considered the matter of television in legislative committees and has referred this matter to each respective caucus for further consideration.

Your Committee has also reviewed the still photos taken by the news media in the Legislative Chamber for the trial period during the Address-in-Reply and Budget Debates of the current session.

Your Committee recommends that the taking of still photos by the news media in the Chamber be permitted on an ongoing basis; that the photos be taken only of Members on their feet speaking; and that the photos be taken without the use of flashes and only from the Press Gallery location.

On motion of the Hon. Mr. Bertson, seconded by Mr. Lingenfelter, by leave of the Assembly:

Ordered, That the Fourth Report of the Standing Committee on Communication be taken into consideration later this day.

The Assembly resumed the adjourned debate on the proposed motion of the Hon. Mr. Andrew:

That this Assembly do now resolve itself into the Committee of Finance and the proposed amendment thereto moved by Mr. Shillington:

That all the words after the word "That" be deleted and the following substituted therefor:

this Assembly express its shock and dismay with the budget because:

- (1) it contains the largest deficit in the 78-year history of the province—\$317 million;
- (2) coupled with the deficit in 1982-83, the Government of Saskatchewan is now more than half a billion dollars in the red;
- (3) these record deficits are not the result of government efforts to create jobs, but rather the result of government give-aways to: big oil companies; American-based private potash companies; and interprovincial truckers such as CP Transport;
- (4) it offers a totally inadequate job creation response at a time when unemployment is at its highest level in Saskatchewan since the Great Depression;
- (5) it contains no assistance for Saskatchewan farmers to deal with their worsening cost-price squeeze;
- (6) it contains no economic development plan for the people of northern Saskatchewan;
- (7) it contains savage cuts in needed government services for thousands of Saskatchewan people.

The debate continuing, it was moved by Mr. Maxwell: "That this debate be adjourned until later today."

The question being put it was agreed to.

Moved by Mr. Katzman, seconded by Mr. Morin:

That the Fourth Report of the Standing Committee on Communication be now concurred in.

On motion of Mr. Sutor, seconded by Mr. Johnson:

## STATEMENT BY MR. SPEAKER

On Thursday, March 17, 1983, First Reading was given to Bill No. 6—An Act to amend The Public Utilities Review Commission Act, standing in the name of the Member for Regina Centre.

This Bill contains a lengthy preamble which in itself is a permissible though little-used form for public bills in this House; however, the contents of this particular preamble have caused me serious concern.

I refer all Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para.705, p.218:

The purpose of a preamble is to state the reasons and intended effects of the proposed legislation. Though a preamble is not necessary in a public bill, it is sometimes inserted in bills of great importance in order to place on record the intentions of the framers of the bill.

Further, I would like to cite Erskine May's *Parliamentary Practice*, Nineteenth Edition, p. 465.

Though a preamble is not often incorporated now in a public bill, it is still employed in bills of great constitutional importance or bills to give effect to international conventions...in order to place on record the intentions of the framers of the bill.

I find that the preamble to Bill No. 6 is not restricted to the purposes or usage outlined above.

A technical problem arises in the first clause of the preamble which states that:

Whereas the Government of Saskatchewan enacted *The Public Utilities Review Commission Act*...

Strictly speaking, the Government of Saskatchewan cannot enact any statute — only the Legislature has that power.

Also, the fourth clause of the preamble states that:

Whereas the Public Utilities Review Commission has indicated that it may proceed to court to clarify the application of the Act to such a case; and...

This clause is hypothetical and speculates on the actions of the Public Utilities Review Commission and is therefore inappropriate as part of a preamble for a Bill.

Also, the fifth clause of the preamble states that:

Whereas although the original Act contemplated that the term 'rate' would apply in such a case but the Government, or certain of Her Majesty's Ministers, have failed to understand or recognize this fact and it is therefore necessary to clarify the Legislation.

This is going far beyond the normal bounds of a preamble in that it is introducing debatable material and opinions that would be more appropriately placed before the Assembly during debate on Second Reading. It fits neither the practices of this House nor the guidelines for preambles as set out in parliamentary authorities.

Therefore I rule that Bill No. 6 is out of order. However, this ruling does not prevent the Member for Regina Centre from re-submitting his Bill in a proper form.

The Assembly, according to Order, resolved itself into the Committee of Finance.

*(In the Committee)*

The following Resolutions were adopted:—

INTERIM SUPPLY

Resolved, That a sum not exceeding two hundred and forty-three million, eight hundred and eighty-five thousand, two hundred and ten dollars, be granted to Her Majesty, on account, for the twelve months ending March 31, 1984.

Resolved, That a sum not exceeding fifty-nine million, five hundred and nine thousand, two hundred and fifty dollars, be granted to Her Majesty, on account, for the twelve months ending March 31, 1984.

STATEMENT BY MR. SPEAKER

On Friday a point of privilege was raised by the Minister of Finance with regard to remarks made by the Member for Shaunavon. I have checked the record of last Friday and find that no Member who had the floor uttered remarks which were either unparliamentary or which constitute a breach of privilege. However, it is true that on that day, and on nearly every sitting day of the current session, Members from both sides of the Assembly have been making loud remarks from their seats which are uncalled for and which do not contribute to debate in any way. Remarks made by Members not in the debate have, in the past, not been judged to be unparliamentary and in fact are not heard by the Chair.

The Chair has repeatedly called the House to order and has tried to curb the disruptive remarks made by Members from their seats. Therefore I will once again repeat my request for all Members to cease such poor behaviour and to resist the temptation to enter debate from their seats but instead to enter debate by being recognized by the Chair.

The following Motions for Returns (Not Debatable) on the Orders of the Day were transferred to the Motions for Returns (Debatable) classification:

Return Nos. 70 to 90 inclusive

The Assembly, according to Order, resolved itself into the Committee of Finance.

### PRAYERS

#### STATEMENT BY MR. SPEAKER

Members will note that Resolution No. 24 standing in the name of the Member for Quill Lakes proposes to discuss matters which have already been debated during the current session and includes references to subjects substantially the same as those contained in the amendment to the budget motion which was disposed of on April 8. Therefore I must rule the proposed motion out of order on the grounds of anticipation.

I refer all Hon. Members to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, para. 340, p.119, *Sir Erskine May's Parliamentary Practice*, Nineteenth Edition, p. 371 and to a ruling of this Chair of March 20, 1979, (*Journals of the Legislative Assembly of Saskatchewan*, 1979, p. 75).

The following Motions for Returns (Not Debatable) on the Orders of the Day were transferred to the Motions for Returns (Debatable) classification:

Return Nos. 91 to 106 inclusive.

The Order of the Day being called for the following motion under Rule 16, it was moved by Mr. Rybchuk, seconded by Mr. Glauser:

That in the opinion of this Assembly, differences of opinion between Canadian citizens or governments and citizens or governments of the United States should be settled by discussion and negotiation, and this Assembly rejects as insulting to the people of the United States and unrepresentative of the feelings of Canadians the desecration or burning of the American flag and condemns the actions of those who acquiesce or participate in such provocations against a neighbour.

A debate arising, it was moved by Mr. Thompson, seconded by Mr. Lingenfelter in amendment thereto:

That all the words after the word "Assembly" in the first line be deleted and the following substituted therefor:

Canada and the United States have had a long, warm friendship as trading nations; and further, that in order to maintain this friendship, it is the view of this Assembly that there must be frank and open discussion and debate of all issues which concern the people and their governments in both Canada and the United States.

The debate continuing on the motion and the amendment, and the period of seventy-five minutes having expired under Rule 16(4), Mr. Speaker interrupted proceedings.

The Order of the Day being called for Resolution (No. 19), it was moved by Mr. Lingenfelter, seconded by the Hon. Mr. Blakeney:

That this Assembly regrets the Saskatchewan Government's failure to recognize the social and economic needs of our senior citizens, and its failure to provide adequate programs and services for them.

A debate arising, it was on motion of Mr. Birkbeck, adjourned.

The Order of the Day being called for Resolution (No. 20), it was moved by Mr. Thompson, seconded by Mr. Yew:

That this Assembly condemn the Government of Saskatchewan for totally ignoring the needs of the people of the north, for dismantling the Department of Northern Saskatchewan and for failing to implement a development and employment strategy for the people of the north.

A debate arising, it was moved by Mr. Meagher, seconded by Mr. Morin, in amendment thereto:

That all the words after the word "Assembly" be deleted and the following substituted therefor:

congratulates the Government of Saskatchewan for ending unacceptable spending and management practices by dismantling the Department of Northern Saskatchewan, and for working to enhance local autonomy in the north by bringing forward for discussion the proposed Northern Municipalities Act.

That this Assembly condemns the Government of Saskatchewan for mis-managing the affairs of the provincial utilities and for seeking to impose excessive increases in rates for natural gas, electric power, telephones, and insurance, thereby retarding economic recovery and imposing an undue burden on Saskatchewan businesses, working people who are suffering from unemployment and wage freezes, and farmers and rural residents who are suffering a drastic decline in real farm income.

That all the words after the word 'Assembly' be deleted and the following substituted therefor:

supports the steps being taken by the Government to improve the efficiency and sensitivity to market conditions of the provincial utilities, congratulates the Government for freezing utility rates for one year to protect the people of Saskatchewan from recessionary pressures in the Canadian economy, and expresses its confidence in the ability of the Public Utilities Review Commission to ensure that all rate increases are fully justifiable.

### STATEMENT BY MR. SPEAKER

Yesterday a point of order was raised regarding answers to questions in question period. In particular, a problem arose when the Premier answered one question, then while still on his feet offered an answer to an earlier question. While Members should not object to receiving answers to their questions, I would like to advise all Ministers that if they wish to present answers to questions for which they have taken notice, they should seek to be recognized by the Chair for that purpose. This will prevent a Member's line of questioning from being interrupted and will facilitate a more orderly question period.

On motion of the Hon. Mr. Berntson, seconded by the Hon. Mr. Taylor, by leave of the Assembly:

Ordered, That the order for Second Reading of Bill No. 38—An Act to amend The Agricultural Incentives Act—be discharged and the bill withdrawn.

The following Motions for Returns (Not Debatable) on the Orders of the Day were transferred to the Motions for Returns (Debatable) classification:

Return Nos. 111 and 112.

The Assembly, according to Order, resolved itself into a Committee of the Whole.

The following Bill was reported with amendments, considered as amended, and by leave of the Assembly, read the third time and passed:

Bill No. 33—An Act respecting the Department of Revenue and Financial Services

The Committee was given leave to sit again.

The Assembly, according to Order, resolved itself into the Committee of Finance.

Progress was reported and the Committee given leave to sit again.

## STATEMENT BY MR. SPEAKER

In response to a point of order raised by the Minister of Finance on May 30, 1983, Mr. Speaker stated that he had checked the record, reviewed the guidelines for oral question period when that proceeding was first instituted in the Saskatchewan House in 1976, and had referred extensively to *Beauchesne's Parliamentary Rules and Forms*, Fifth Edition, but found that it is difficult to rule on the urgency or immediacy of a question, especially when pertinent points are often raised in supplementary questions. He asked Members to attempt to keep their questions as sharp and to the point as possible, and asked Ministers to keep their answers sharp and to the point as well.

The Order of the Day being called for the following motion under Rule 16, it was moved by Mr. Lingenfelter, seconded by Mr. Thompson:

That this Assembly condemns the Saskatchewan government for its failure to recognize the plight of many thousands of Saskatchewan students and young people who cannot secure summer employment, and that this Assembly urges the government to exercise positive economic leadership in implementing immediately a full array of effective measures which will enable the youth of this province to secure meaningful and rewarding employment opportunities.

A debate arising, it was moved by Mr. Folk, seconded by Mr. Glauser, in amendment thereto:

That all the words after the words "That this Assembly" be deleted and the following substituted therefor:

congratulates the Government of Saskatchewan for the success of the "Opportunities '83" student employment program, and commends it for establishing the Small Business Employment Program which will provide 4,000 new jobs in the small business sector."

The debate continuing on the motion and the amendment, and the question being put on the amendment, it was agreed to.

The question being put on the motion as amended, it was agreed to, on Division.

The Order of the Day being called for Resolution (No. 10), it was moved by Mr. Morin, seconded by Mr. Myers:

10:04 o'clock a.m.

His Honour the Lieutenant Governor entered the Chamber and took his seat upon the Throne. His Honour was then pleased to deliver the following speech:—

Mr. SPEAKER,

MEMBERS OF THE LEGISLATIVE ASSEMBLY

It is my duty to relieve you of further attendance at the Legislative Assembly. In doing so, I wish to thank you and congratulate you on the work you have done.

In this Second Session of the Twentieth Legislature you have dealt with more than 100 bills and have set directions in government policy which will provide for orderly growth and development of our Province.

In recognition of the need for a strong private sector, the Department of Economic Development and Trade has been established to open new export markets and promote new products and investment opportunities within Saskatchewan. This is just one example of a re-organization program initiated in an effort to achieve a more productive, responsive government.

You have approved amendments to The Education Act to reflect concerns of the education community.

You have provided for a consolidation and modernization of legislation respecting justice, health, finance, municipalities, mineral resources and the environment.

You have taken innovative steps in the areas of science, communications and technology.

In order to promote and strengthen agriculture, amendments to the Heritage Fund (Saskatchewan) Act have created a new agricultural division to fund the farm purchase program and to form a research and development division.

Amendments to the Trade Union Act clarify the roles and responsibilities of employees and employers, and were drafted after consultation with many groups and individuals.

You have passed amendments to the Highways and Vehicles Act focusing on stricter safety guidelines with particular emphasis placed upon the prevention of drinking drivers. Also included in these amendments are increased traffic fines and suspensions.

In taking leave of you, I wish to express my thanks to the Members on both sides of the House for their kindness as I begin my term in this Office.

I thank you for the manner in which you have devoted your energies to the activities of the Session and wish you the full blessing of Providence.

The Hon. Mr. Berntson, Provincial Secretary, then said:

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of His Honour the Lieutenant Governor that this Legislative Assembly be prorogued until later today, the 17th day of November, 1983, at 2:00 o'clock p.m.: and this Legislative Assembly is accordingly prorogued.
